

Jill Evans-Kavaldjian - Drawing, Painting, Printmaking

ABOUT THE ARTIST

Jill's pencil drawings, paintings in watercolor and oil, and paper sculptures reflect her interest in combining subjects from nature with formal artistic themes, including studies of negative space. Some of her recent work explores the idea of three dimensional drawing as paper sculpture.

Jill has a BFA in painting and printmaking, and has returned to block printing in the past year.

She has begun a series of farm-themed prints that are also available as greeting cards, as well as a series of seasonal block prints. These bold prints reflect Jill's other artistic life as a designer.
